### Product description

The 2160 Classic Line Dater with metal frame is a robust date stamp which will last for many years. Banks, lawyers and other companies appreciate the long life span of this product. The date comes along with space for personalised text up to 2 lines; the large image window has the possibility to show the Impression or the companies logo. All in all a loyal attendant over years.

### Key Facts

- With metal frame for more stability
- Easy and clean pad exchange
- Band cover for clean handling
- Rubber feet to avoid sliding
- Marks for exact positioning
- Large image window to show both, the imprint as well as your logo or a personal message

### How to change replacement pad
